REISSUE APPLICATION DECLARATION BY THE INVENTOR	Docket Number (Optional) 01-9676
---	-------------------------------------

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 6,152,866, granted November 28, 2000, and for which a reissue patent is sought on the invention entitled Folding Collapsible Exercising Apparatus

the specification of which

is attached hereto.

was filed on \_\_\_\_\_ as reissue application number \_\_\_\_\_ / \_\_\_\_\_  
and was amended on \_\_\_\_\_  
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

by reason of a defective specification or drawing.

by reason of the patentee claiming more or less than he had the right to claim in the patent.

by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

In this reissue application, new claims are being added to provide broader claim protection to which applicant is entitled. As the originally filed claims were allowed in the first office action, without rejection, none of the limitations removed by the added claims were necessary to avoid any prior art rejections.

Applicant failed to broadly claim his invention as a result of unintentional error.

Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number
